DETAILED ACTION

Status of the Application

Claims 1-8 are pending.

It is noted that claims 6-8 are directed to non-statutory matter, i.e. a use. For restriction purposes, it will be assumed that these claims are directed to a method of use.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 6-8, drawn to a hydantoin racemase from *A. aurescens* DSM 3747, and a method of use of said racemase for the production of amino carboxylic acids.

Group II, claim(s) 2-5, drawn to a polynucleotide encoding a hydantoin racemase from *A. aurescens* DSM 3747.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

3. According to PCT Rule 13.2, unity of invention exists only when the shared same or corresponding special technical feature is a contribution over the prior art. The inventions listed as Groups I-II do not relate to a single general inventive concept because they lack the same or corresponding special technical feature. The technical feature of Group I is a polypeptide which is a hydantoin-racemase from *A. aurescens* DSM 3747, which is shown by Pietzsch et al. (Dechema

Biotechnology Conferences 4:259-262, 1990; cited in the International Search Report of PCT/EP00/08580) to lack novelty or inventive step since Pietzsch et al. teaches a polypeptide from *A. aurescens* DSM 3747 which has hydantoin racemase activity. Thus, the technical feature does not make a contribution over the prior art.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement can be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Certain papers related to this application may be submitted to Art Unit 1652 by facsimile transmission. The FAX number is (703) 872-9306. The faxing of such papers must conform with the notices published in the Official Gazette, 1156 OG 61 (November 16, 1993) and 1157 OG 94 (December 28, 1993) (see 37 CFR 1.6(d)). NOTE: If Applicant submits a paper by FAX, the original copy should be retained by Applicant or Applicant's representative. NO DUPLICATE COPIES SHOULD BE SUBMITTED, so as to avoid the processing of duplicate papers in the Office.
